EDUCATION

- **Amrita Vishwa Vidyapeetham** Coimbatore, IN
B.Tech in Computer Science and Engineering; CGPA: 7.45 *June 2017 – May. 2021*

SKILLS

- **Technical Skills:** Python, OOP, Design Patterns, SOLID Principles, SQL, PySpark, Databricks, Azure ML, Azure DevOps, Git, Streamlit, mlflow, Co.dx, Tableau, Huggingface, OpenAI, Langchain, LLAMA Index, Azure App Service, Azure Pipelines, API Development, Unit Testing, CI/CD, Cloud Computing
- **Data Science and ML:** Elasticity Modelling, Linear Regression, Random Forest, XGBoost, Time Series Forecasting, Generative AI (RAG Systems)
- **Core Competencies:** Pricing Analytics, Solution Architecture, Technical Auditing, Story-boarding , Stakeholder Management, Agile Delivery
- **Certifications:** DataIKU Core Designer, Google Cloud Big Data & ML Fundamentals, Introduction to Generative AI

EXPERIENCE

- **Shell India Markets Pvt Ltd** Chennai, IN
Associate Data Scientist *Nov 2023 – Present*
 - **Retail Fuels Pricing Optimization using Price Elasticity:** Spearheaded end-to-end development of OptiML Retail Fuels pricing solutions for PH and UK markets, enhancing fuel margin optimization using site level price elasticities. Delivered \$11.75M in 2024 and \$12.1M in 2025. Ensured reproducibility, reliability, and full technical audit compliance.
 - **OptiML Accelerator:** Built a reusable accelerator to automate delivery of elasticity results across markets, reducing go-to-market time from 2–3 months to 2 weeks.
 - **US Wholesale Rack Strategy Review:** Developed a framework to help the pricing team refine the US Fuels Wholesale Rack Pricing Strategy using insights from data.
 - **Quality Governance:** Maintained Project repositories with silver inner-source standards (Git, Apiiro, SonarQube). Conducted peer reviews, enforced coding standards, and built central knowledge repositories.
 - **Stakeholder Engagement:** Collaborated with Global and Local pricing, Data Engineering, and leadership teams across markets. Ensured clear communication, timely escalations, and proactive issue resolution.
- **The Math Company Pvt Ltd** Bangalore, IN
Associate – Data Science and Engineering *Jan 2021 – Oct 2023*
 - **Generative AI Capability:** Built internal GenAI tools using OpenAI, Huggingface, and Langchain for sentiment analysis, text-to-SQL, and document querying.
 - **ML-Ops Solutions:** Developed real-time alert classification and multi-SKU forecasting systems using Azure ML, Databricks, and XGBoost.
 - **Tooling Deployment:** Created secure CI/CD pipelines for Streamlit apps and deployed within Azure VNet.
 - **Client-Facing Platforms:** Built assortment optimization and brand management tools for Fortune 500 CPG clients using Python, Plotly, and Co.dx.

ACHIEVEMENTS

- **Higher Rating in Annual Performance Review in 2024:** Awarded Higher rating in the annual performance review for the year 2024 based on consistent performance.
- **Runner Up in Story Telling Competition:** Runner-up in a story telling competition that required analysing, hypothesising and storyboarding based on data.
- **Workshops, Trainings and Sessions Conducted:** Conducted sessions for peers in topics - GenAi - RAG Systems, Python Programming and Best Practices, MLOPS using Databricks, MLOPS using Azure ML, mlflow, Streamlit, pyspark
